

Updates as of 9/19/2024

- 1. Remote project creation is now only limited to Area Specialists. This was requested by several areas as many remote projects do not follow ‘remote project guidelines’. If a CC or Stake specialist is aware of a remote project that needs to be created, they will now work with their area specialist(s).

Manning, Alberta, T0H 2M0

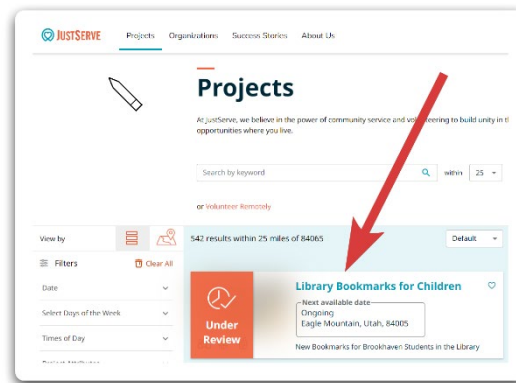

2 volunteers needed

98 more events

more volunteers needed

This is to add zip codes.

4. Pending projects show in public project search again as “Under Review”.

5. Fixed bug for ‘View/Email Volunteers’ page for Recurring projects that had been edited after being posted. The dates should now display if volunteers are needed.
6. Fixed addressed issues causing login failures for some mobile app users.
